PROGLAZER® PROPANE FLOOR MACHINES WITH HONDA ENGINES

Economical burnishing power for the cleaning and maintenance professional

Some facilities and cleaning applications demand more than what electric and battery units can provide. And when it comes to maintaining a high gloss for large floor areas, speed, efficiency, and cost control are key. Tornado's Propane-Powered Floor Machines have it all when it comes to meeting maintenance demands while making the most of your investment in floor care equipment. Our units set new standards for quality and performance in the floor maintenance industry. Ease of operation, durability, and workhorse reliability make these units the propane-powered cleaning equipment of choice for the floor care professional.

A minimum 1850 RPM are at your fingertips, and all units feature Honda engines built to tackle the tough cleaning jobs faced by maintenance professionals everyday. These machines provide superior levels of power for any burnishing job while offering reduced noise and vibration for added operator comfort and reduced disruption to others in the area. In addition to a rugged cast aluminum deck, all units come complete with burnishing pad, ready-to-fill painted steel propane tank, and 110 V electric start.

Versatile
Industrial plants, large box retailers, schools, office buildings, and warehouses are just a few of the many applications for Tornado propane burnishers.

Value
The 21" unit utilizes an 11 HP Honda engine, while a 13 HP engine is included with the 24" and 28" models. An optional, factory-installed clutch is available on the 24" and 28" burnishers.

Ease of operation
These Tornado burnishers feature 110 V electric start. A starting cable, shown here in the operator's hand, comes packaged with each unit. Simply plug the cord into any standard outlet and push a button to start the machine.

FEATURING HONDA ENGINES

28" and 21" models (24" model also available)

Disc pads
The propanes can be fitted with appropriate pads for all high-speed operations.

Environmentally friendly
The engines are EPA approved.
