PS 8220

PS SERIES OF PROFESSIONAL SPOTTERS

Mobility, portability and uncompromised extracting power

From Tornado comes one of the most effective weapons you can have in the war against spots. The PS Series of Professional Spotters features light, compact units that come complete with molded-in Lift Grip handle, transport wheels, quick-disconnect hose, and all-purpose clear-view utility tool. PS Spotters perform exceptionally well on carpets, automobile, boat and RV interiors, and upholstery.

With a compact design and quiet operation, the units are favorites in health care and educational facilities as well as commercial buildings, restaurants, and retail stores. The user simply sprays solution through the jet-spray pump and recovers the dirty solution through the included clear-view tool. A steel transport handle kit can be ordered as an optional accessory and is installed by the user.

PS 8220

PS 8220 (shown with optional handle)

Convenient operation

The 2-gallon recovery tank lifts off for easy dumping when full. A large opening on the 2-gallon solution tank makes rising and refilling simple. Both units have a quick-disconnect valve for use with attachments.

Mobility and portability

The unit comes standard with a molded-in Lift Grip handle and fits easily in any car trunk or broom closet. The steel handle for pulling the unit from room to room or upstairs can be ordered as an option.

Versatile

The PS Series is perfect for today's fiber-based office furniture, as well as auto interiors, carpeted stairs, and tight areas where walk-behind extractors can't go.

PS Dragwand

The PS dragwand and 8' vac pressure hose are optional attachments for added reach under furniture and other obstacles.
