BR 400 AUTOMATIC FLOOR SCRUBBER

BR 400

BR 400 AUTOMATIC FLOOR SCRUBBER

Professional scrubbing, simple operation, and unsurpassed mobility

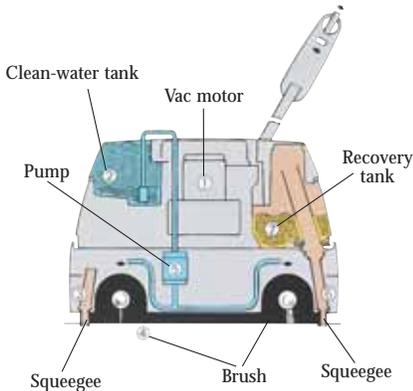

The BR 400 puts the power of automatic scrubbing in a compact package ready for virtually any hard floor surface. This electric unit operates in forward and reverse in a 16" scrubbing path at 1000 RPM. Height adjustable transport wheels permit variable pressure. A convenient foot switch lowers and raises the squeegees while simultaneously starting and stopping the vac motor, respectively.

The unit lays down cleaning solution, scrubs, and recovers in either direction. Features include a removable two-chamber tank system, fluid level indicator, and easy operator controls. The BR 400 is constructed of durable, corrosion-free plastic with a sturdy tubular steel handle.

The BR 400 comes standard with soft black brushes, ideal for routine mopping operations. A wide selection of other brushes and pads are also available (see below). The BR 400 tackles ceramic tile, quarry tile, paver brick, raised rubber disc floors and other challenging surfaces. This versatile unit is perfect for hotels, hospitals, restaurants, restrooms, and retail sales floors.

BR 400

Compact
The BR 400 takes automatic scrubbing technology into confined areas where bigger units can't go.

Simple to use
Removable water tanks are easily emptied, rinsed, and re-filled.

Professional performance
Height adjustable transport wheels allow variable contact pressure with the floor surface.

PRODUCT SPECIFICATIONS

MODEL	CATALOG NUMBER	CLEANING PATH	SOLUTION/RECOVERY TANKS	BRUSH SPEED	OPERATING DIRECTION	POWER*	WEIGHT	DIMENSIONS (L x W x H)
